ONLINE COMMUNITY CONNECTS GLAUCOMA SURGEONS

Online Community Connects Glaucoma

Surgeons

- [Print](#)

iScience Interventional (Menlo Park, CA) has launched [iForum](#), an online resource center for surgeons who have completed the company's canaloplasty training program. According to a news release, the site features a peer-to-peer chat room, a message board, and an archive of clinical materials. Registered users can also download surgical videos (including those posted by other surgeons), educational seminars, and podcasts of presentations from professional meetings.

For more information about iForum or to learn more about canaloplasty, visit www.iscienceinterventional.com.
